**Subject:** RE: Viking Riser

Sheila:

Thank you for the follow up. Yes, exhaust riser arrived a couple hours prior to launch of vessel.

Sea Trial on rebuilt engines during Saturday and Sunday went extremely well.

Vessel departed yesterday at noon with a happy customer.

Your contribution to making it all happen on the project timeline is very much appreciated.

Many thanks to you and your team members for a truly outstanding job.

Regards,

Ken Youngchild

Project Manager
