Mammogram

Did you know?

Mammograms should be performed annually beginning at ages 40+ (per the American Cancer Society); every other year at ages 50+ (per the U.S. Preventive Services Task Force)

Elements of the Wellness Program Include:

- **Mammograms** are covered by your medical plan at **NO** cost to you while in Network for both routine and diagnostic screenings.
- The test can be performed at your local participating Independent Diagnostic Testing Facility or at the Outpatient Center of a participating Hospital.
- BCBSF online provider directory can be utilized to find a participating center/facility at www.bcbsfl.com .
