Remember:

The earlier you apply for scholarships the more likely you are to be awarded them.

Quantity is good; it doesn't hurt you one bit to apply for every scholarship you find. I encourage it!

Scholarships are *free* to apply for and *free* to receive, never pay for a scholarship or a scholarship application.

Although I have gone through each of these websites, use your best judgment when applying and providing personal information over the internet!

Visit your local BRACE advisor for even more scholarship opportunities!
