

AvianBreeder™ Diets

Product Description

ZuPreem® AvianBreeder™ Diets are nutritionally rich extruded diets designed to support the reproduction stages of psittacines (hookbills). The diets contain higher levels of protein, fat, and calcium for breeding birds or birds requiring higher levels of these nutrients. Diets are nutritionally complete and require no supplements. Two choices – FruitBlend™ Flavor and Natural.

▶ **New and improved flavors increase palatability**

More fruity flavor in FruitBlend Flavor and a new veggie flavor in Natural means even the most finicky birds like these diets

▶ **Increased levels of protein, fat and calcium**

Aids in keeping breeding stock in prime breeding condition and contributes to optimum production of offspring

▶ **Complete and balanced nutrition for breeding birds**

Combines essential nutrients birds need with maximum digestibility for excellent health

▶ **Two choices:**

FRUITBLEND™ FLAVOR now with more bananas, oranges, apples and grapes ground from fresh fruit for a more fruity flavor

NATURAL now with carrots, celery, beets, watercress and spinach ground from fresh vegetables for a new veggie flavor

▶ **More cost efficient than feeding seeds**

Less product waste than with seeds, and the diet provides balanced nutrition with no vitamin or mineral supplements required or recommended

▶ **Naturally preserved with Vitamins E and C**

Longer shelf life than seeds and contain no artificial preservatives

▶ **Stringent quality control standards – Manufactured in an American Institute of Baking certified food-grade plant**

Fixed formulations with high-quality fresh ingredients provide consistent dependable nutrition in every nugget

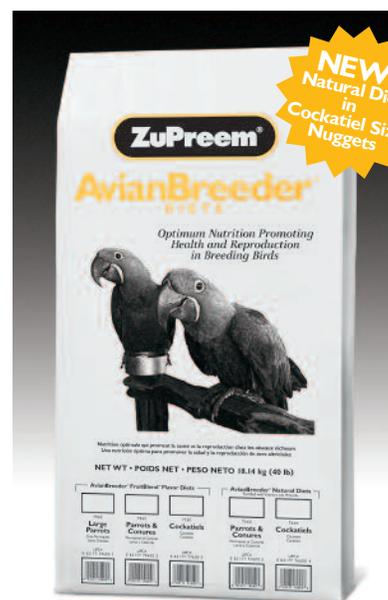

Product Characteristics

AvianBreeder™ FruitBlend™ Flavor Diets contain five differently colored, individually shaped, fruit-flavored extruded nuggets*. The nugget shapes are apples, bananas, oranges, grapes and melons. The diets are available in three nugget sizes.

AvianBreeder™ Natural Diets contain naturally tan, oval-shaped nuggets* and are available in two nugget sizes. With no colorants or fruit shapes, it appeals to breeders who want to feed a more natural diet.

* Individual fruit shapes and oval shapes are maintained where nugget size allows. Cockatiel nuggets are round and the perfect size for smaller species.

Shelf-life: One year from date of manufacture.

AvianBreeder™ Diets

Feeding Instructions

Feed ZuPreem® AvianBreeder™ Diets before the beginning of breeding season if birds are seasonal breeders. If parents are rearing and feeding their babies, feed them the diet until the baby birds are weaned. Can also be fed when birds are housed in outdoor aviaries during cooler temperatures when their energy requirements are higher.

AvianBreeder Diets are formulated to be fed free choice. A typical bird will consume approximately 20% of its body weight per day. Feed the diet to maintain proper body condition. If the diet is moistened or becomes wet, remove the diet after four hours.

ZuPreem AvianBreeder Diets are formulated to be the bird's sole source of nutrition and require no supplements. If the diet is supplemented with other food items, make sure AvianBreeder Diet makes up at least 80% of what the bird consumes. Adding vitamin or mineral supplements to AvianBreeder Diet is not recommended and could be harmful to the bird.

Convert the bird to ZuPreem AvianBreeder Diet by mixing AvianBreeder Diet with the current food, slowly increasing the proportion of the AvianBreeder Diet and decreasing the proportion of the previous food over the course of 10 to 14 days minimum. Monitor the color of the bird's droppings to ensure they are well formed. The color of the droppings may change as a result of the dietary change. It is not uncommon to observe certain colors from the AvianBreeder FruitBlend Flavor Diet appear in the feces.

Note – As an indicator of health, always monitor for changes in weight and body condition. Provide adequate amounts of food to maintain body condition, preventing excessive thinness or obesity.

Always provide clean, fresh water.

Ingredients

AvianBreeder™ FruitBlend™ Flavor Diets – Ground corn, Soybean meal, Ground wheat, Vegetable oil, Wheat germ meal, Wheat middlings, Sucrose, Dried whole egg, Dicalcium phosphate, Calcium carbonate, Ground fruit (bananas, oranges, apples and grapes), Iodized salt, DL-methionine, Choline chloride, Ascorbic acid (source of Vitamin C), Natural mixed tocopherols, Rosemary extract, Citric acid, Natural and artificial colors, Artificial flavors, Manganous oxide, Zinc oxide, Copper sulfate, Calcium iodate, Sodium selenite, Vitamin A supplement, Vitamin D₃ supplement, Vitamin E supplement, Vitamin K supplement, Niacin, Calcium pantothenate, Pyridoxine hydrochloride, Thiamine, Riboflavin, Folic acid, Biotin, Vitamin B₁₂ supplement.
