Feeding/Irrigation Tubes

Stainless Steel Feeding Tubes—Curved (SKU# 71106-71184)
Stainless Steel Feeding Tubes—Straight (SKU# 72106-72184)
Silicon Feeding Tubes (SKU# 70030-70099)

Stainless Steel Feeding Tubes—Curved

Precision made stainless steel tubes with smooth-bore, slip-on, interlocking Luer lock hubs that securely twists onto syringes. Nickel-plated silver ball on the end prevents injury to sensitive tissue. Commonly used with birds to administer nutrition or medications in a liquid form. Also used for flushing or irrigation of wounds or other treatment areas. Can be autoclaved/sterilized for repeat use. Available in different gauges and lengths to meet every need.

Stainless Steel Feeding Tube (Curved) 10 gauge x 6" (SKU# 71106)
Stainless Steel Feeding Tube (Curved) 10 gauge x 9" (SKU# 71109)
Stainless Steel Feeding Tube (Curved) 12 gauge x 4" (SKU# 71124)
Stainless Steel Feeding Tube (Curved) 14 gauge x 3" (SKU# 71143)
Stainless Steel Feeding Tube (Curved) 14 gauge x 4" (SKU# 71144)
Stainless Steel Feeding Tube (Curved) 16 gauge x 3" (SKU# 71163)
Stainless Steel Feeding Tube (Curved) 16 gauge x 4" (SKU# 71164)
Stainless Steel Feeding Tube (Curved) 18 gauge x 2" (SKU# 71182)
Stainless Steel Feeding Tube (Curved) 18 gauge x 3" (SKU# 71183)
Stainless Steel Feeding Tube (Curved) 18 gauge x 4" (SKU# 71184)

Stainless Steel Feeding Tubes—Straight

Commonly used with reptiles to administer nutrition or medications in a liquid form. Also used for flushing or irrigation of wounds or other treatment areas. Precision made stainless steel tubes with Luer lock hubs that securely locks onto syringes. Nickel-plated silver ball on the end prevents injury to sensitive tissue. Can be autoclaved/sterilized for repeat use. Available in different gauges and lengths to meet every need.

Stainless Steel Feeding Tube (Straight) 10 gauge x 6" (SKU# 72106)
Stainless Steel Feeding Tube (Straight) 10 gauge x 9" (SKU# 72109)
Stainless Steel Feeding Tube (Straight) 12 gauge x 4" (SKU# 72124)
Stainless Steel Feeding Tube (Straight) 14 gauge x 3" (SKU# 72143)
Stainless Steel Feeding Tube (Straight) 14 gauge x 4" (SKU# 72144)
Stainless Steel Feeding Tube (Straight) 16 gauge x 3" (SKU# 72163)
Stainless Steel Feeding Tube (Straight) 16 gauge x 4" (SKU# 72164)
Stainless Steel Feeding Tube (Straight) 18 gauge x 2" (SKU# 72182)
Stainless Steel Feeding Tube (Straight) 18 gauge x 3" (SKU# 72183)
Stainless Steel Feeding Tube (Straight) 18 gauge x 4" (SKU# 72184)
Silicon Feeding Tubes

Disposable, silicon feeding tubes are sterile and individually packaged, and can be used with birds, reptiles and small mammals. They are also ideal for hand feeding young or debilitated/hospitalized birds, because they are flexible, atraumatic and do not injure sensitive tissue. So economical you can use a new one with each use, and can be sold to pet owners for home feedings. Clear smooth tip with two holes on side of tip for efficient delivery of nutrition in a liquid form. Cyrolite Luer lock connectors provide a secure connection for use with a 12-20 cc feeding syringe. Also, use the Cyrolite Tube Connector when connecting to a standard syringe. The five diameter sizes in a standard 7” (18 cm) length meet the needs of every patient and have different colors for easy recognition.

Silicon Feeding Tube 3.0 mm (SKU # 70030)
Silicon Feeding Tube 4.0 mm (SKU # 70040)
Silicon Feeding Tube 5.0 mm (SKU # 70050)
Silicon Feeding Tube 5.5 mm (SKU # 70055)
Silicon Feeding Tube 6.0 mm (SKU # 70060)
Cyrolite Tube Connector (SKU # 70099)
